We shall reach Nepalgunj airport early in the morning as directed by the guide to ensure that we can board the earliest possible flight to Simikot. On reaching Simikot our representative will meet you at the airport and will take care of your checked in luggage. Rest of the time will be free at Simikot to adjust with the weather conditions. Stay in a guesthouse in dormitory style. If weather permits, we may take further helicopter trip to Hilsa today itself.

**Important Remark:** Based on our past experience with weather problems, we have added a night stay at Simikot prior to entering Tibet region. In the event of delay in crossing the border due to any reason one must spend time relaxing, doing yoga meditation or in other personal activities. The delay in crossing the border, if takes place, might cause health issues as the dusty air, scorching heat or cold winds here are tough to bear. Stay at Hilsa is not planned but if occur for longer than a day, we might face shortage of eatables and other living facilities. Start your drive from Taklakot after breakfast. On the way we will make a stop near Lake Rakshas Taal (Lake of Demons) which is also known as Ravana's Taal. From here you will get a beautiful sight of Mount Kailash standing tall among many other peaks covered with snow. At Rakshas Taal spend some memorable time and enjoy photography with your friends and family. Proceed to Chiu Gompa to check into your guest house near Lake Mansarovar. This 90 kms parikrama of Lake Mansarovar takes about three hours and if possible the driver will make a stop the bus in between the kora from where you will get view of the lake and mount Kailash from a different angle. Come back to your guesthouse after parikrama and take rest.

**Important Remark:** *Kindly take a note that here the only source for water is the holy lake Mansarovar. This is one of the highest fresh water lakes in the world and its water is considered to be good for the purification of body and soul. This natural water is used in cooking, bathing, washing clothes etc and boiled / hot water of the lake is served for drinking in the event when we have shortage of packaged water . If you are not comfortable with this you should use water purifying tablets.*

**Mansarovar visit at night :** *Mansarovar Lake is just few minute walk away from guesthouse. You may go to the lake in the night to explore its beauty under the moon. There are many myths and stories associated with the night view of the holy lake which the travelers may experience by themselves. TREK to DIRAPUK**

In the morning early if someone wants to go to Lake Mansarovar for holy bath and puja, please do so quickly and with prior discussion with your guide. Today we are going to start our trekking of Mount Kailash from Darchen and we have a long day ahead. After breakfast take a 35 kms drive to reach Darchen which is a fairly big settlement near the base of Mount Kailash with lot many hotels, guest houses, shops, markets etc. From Darchen the parikrama of Mount Kailash starts as we continue 06 kms drive by bus to Tarboche flagpole. At Tarboche you can find horse/pony and porter to hire for trekking but sometimes due to rush of pilgrims you might face shortage or non-availability of horse/pony and porters.

Page | 6

**Note:** *Those who wish to change their schedule and do not want to go for trekking will stay at Darchen and pay directly for their accommodation, food and other additional expenses. However if health permits they should visit Yam Dwar and have close darshan of Mt. Kailash.*

From here you can have beautiful sight of the South Face of Mount Kailash and also see Yam Dwar just few minute walk away from. Yam Dwar (Gate to Moksha) is considered to be the start point of the trek from here Dirapuk, which is the ultimate destination for today, is 12 kms away. It takes 4-6 hours to pilgrims to cover this distance by walk. The trek today is flat almost with some slight ups and downs. Lack of oxygen in air makes you restless and the trek becomes little difficult. Walk slow, drink water or juice and keep moving towards your destination. We will make a stop in between at a tea stall where you can buy some more water and juices etc. if you need.

After completing our trek, we will reach to a huge valley dotted with some small buildings and chortens. On the right side of our trek we will see a huge black colour diamond shaped mountain standing tall dominating other mountains

around. This is the North face of holy Mount Kailash. Take pictures, do some meditation, have your food and quickly go to your bed as the night may be very cold here.

**Optional visit :** Charan Sparsh (5475 m is 3 kms trek from Dirapuk. One can consult with tour guide to take this short trek to touch feet of Mt. Kailash. This is not a part of the package and depends on guide's decision. (Distance 3 kms / 01 hour / tough trek)

*Meals included :* Veg Breakfast, Packed Lunch/snacks, Light Dinner

*Max Elevation :* 5210 m

*Distance covered :* 35 kms drive + 12 kms trekking

Be attentive and focused and if lucky you will witness many other magical activities near the mount.

**Important Remark :** Those who do not wish to continue trek further to Zuthulpuk from Dhirapuk will trek down to Darchen. At Darchen their extra expense for accommodation, food etc is to be taken care by the travelers. Our guide may assist them in organizing their stay at a hotel in Darchen, subject to availability. Those who did not go for parikrama the first day will also wait for the completion of Kailash parikrama at Darchen.

After this memorable time, continue your 22 kms long challenging trek to Zuthulpuk. About one hour after the trek from Dirapuk starts you will reach **Dolma La pass** which is the highest and toughest part of the trek. Near Dolma La you will also see '**Shiva Tsal**' (also spelled as Shiva Sthal sometimes). Pilgrim leave their clothes, ornaments, a drop of blood or a lock of hair to represent the act of leaving this life behind and wishing for the end of a miserable life. After completing the trek steep up to Dolma La and then steep down you will sight Gauri Kund (also referred as **Parvati Kund**) on the right side of your trek. Have holy darshan and continue your trek to Zuthulpuk for night stay.

Page | 8

**Important Note** : About 3-4 kms trek (ascend and descend) near Dolma La pass is steep and rocky and it is the toughest part of this trek. Also it is not advisable for pilgrims to go down to touch the water of Gauri Kund as it may be risky. While starting the trek to Zuthulpuk, don't forget to fill up your flask with hot water made ready by our kitchen team in the morning.

around. Here you will see a married old couple supervising the temple. The temple is a residence for over half a dozen Tibetan devotees, helpers or relatives who keep themselves busy with the maintenance of the buildings.

The cave also contains meditation platforms. Climbing up to these caves before ending the final trek of the holy Kailash Mansarovar Yatra is worth.
